

P4 Level 1 - Online Solar PV Test Certificate

Presented to:

Sham Moodley

Congratulations with your achievement.

This certificate is the first step to SSEG and Off-grid solar PV excellence.

P4 Level 1 - Entry Level Exam

P4 Level 2A - Intermediate Theory Exam (Residential & Small Commercial)

P4 Level 2B - Intermediate Practical Exam (non-electricians)

P4 Level 3 - Advanced Theory

Test Passed: P4 Level 1 Classroom Test

Score: 83.6%

Test Date: Tue 8th Dec 2020

Student Nr: 93abr7

AREP Membership Nr: ARP100945

Test Venue: Online

Students that have passed the P4 Level 1 online test have displayed evidence of a working knowledge of:
Series and Parallel connections, Solar irradiation, General battery storage and electrical principles,
Handling and transporting solar PV modules, Basic electrical calculations and standards.

Students are expected to obtain at least 80% in order to pass this test.

This certificate forms part of the P4 Quality Assurance platform. For more information on the complete
Quality Assurance platform for PV contractors, please visit www.arepenergy.co.za.

In order to verify authenticity, please contact the Association for Renewable Energy Practitioners.

Valid for a period of 12 months from the date of issue

A number of certificates are issued by the Association for Renewable Energy Practitioners as part of an industry driven
quality assurance platform. All certificates issued are subject to the AREP terms and conditions. It is important to note that
this certificate is not linked to a formal qualification and forms part of a quality assurance platform for the solar PV sector.

This certificate is the first step in obtaining a Performance Certificate
Performance certificates provide a measure of overall contractor performance
